## PROJECTS

### Alumni Association Portal

[LINK](#)

- Developed a full-stack web application for an Alumni Association Platform using React and Tailwind CSS for responsive and clean UI design.
- Utilized MongoDB for secure, scalable data storage and efficient retrieval of alumni records.
- Integrated user authentication, profile management, and real-time event updates to enhance user engagement and functionality.

### Mega Blogger

[LINK](#)

- Developed a full-stack blogging platform using ReactJS and Tailwind CSS for dynamic UI/UX.
- Utilized Appwrite for backend services, including user authentication and data storage.
- Integrated TinyMCE editor for rich text blogging capabilities, allowing seamless blog writing and posting.

## EXPERIENCE

### Participant, Timechain Summer of Code'24

June 2024 – August 2024

- Participated in a two-month intensive program in blockchain development, focusing on contributing to open-source projects and collaborating with seasoned developers at Timechain Labs to enhance technical expertise.
- Acquired practical skills in smart contract development and gained comprehensive insights into the blockchain ecosystem through hands-on experience, mentorship, and real-world application of blockchain technologies.

## CERTIFICATES

### Blockchain and its Applications (NPTEL) CERTIFICATE

April 2024

- Completed certification in Blockchain and Its Applications, gaining expertise in blockchain fundamentals, smart contract development, and decentralized applications.

### Introduction to Cybersecurity (CISCO) CERTIFICATE

October 2023

- Certified in Introduction to Cybersecurity from Cisco, with knowledge of cyber threats, vulnerabilities, and online protection strategies.

### Bitcoin Enterprise (BSV ACADEMY) CERTIFICATE

May 2024

- Certified in Bitcoin Enterprise, with a focus on blockchain technology and cryptocurrency applications for businesses.
